\*\* Incluso per larghezze superiori a 4,5 mt . Included for over mt. 4,5 width.

Si precisa che questa struttura è stata progettata per protezione solare. Adottando pendenze adeguate, e con l'impiego dei frangivento, indicati in tabella, la struttura può offrire anche un riparo da pioggia. Portata massima di pioggia ammessa di circa 8mm/h, pari ad una pioggia di media intensità. In caso di forti temporali si consiglia di ritrarre il telo, onde evitare la formazione di sacche d'acqua, evitando quindi di lasciare la struttura aperta incustodita.

This structure has been projected for sun protection. With suitable slopes, and using windbreaks as indicated in the table, the structure can also offer a shelter from rain. Maximum permissible load of rain about 8mm / h, corresponding to a middle intensity rain. In case of heavy storms it is suggested to retract the cloth in order to avoid creation of water pockets, so avoiding to leave the structure open.
